PROFILE

Senior React Native Developer with 5+ years building scalable cross-platform mobile apps and delivering on tight deadlines. Experienced in real-time features (WebRTC, camera/QR), native module integration, performance optimization, and resolving production issues. Strong collaborator skilled in clean architecture, reusable components, state management (Redux/Context), REST API integration, and end-to-end app deployment to Play Store and App Store.

PROJECTS

❖ AFA: Meet People, Play Sports

A sports networking mobile application that enables users to connect with nearby players, join activities, and organize games seamlessly, with **100K+ downloads**, actively used across **Australia, Malaysia, Singapore, and Indonesia**, demonstrating strong user adoption and engagement.

Key Responsibilities & Contributions:

Developed & maintained the application using React Native for both Vendor and User

Implemented Shopify UI for unified and efficient cross-platform user experience.

Collaborated with testers to debug issues, enhance functionality, and maintain high code quality

IOS : <https://apps.apple.com/in/app/afa-meet-people-play-sports/id1526420132>

Android : https://play.google.com/store/apps/details?id=com.afausers&hl=en_IN

❖ AFA Biz: Sports Venue Manager

A mobile application for sports venue owners to efficiently manage bookings, schedules, and player activities. It streamlines operations by providing real-time updates, seamless coordination, and an improved user experience for venue management.

IOS: <https://apps.apple.com/in/app/afa-biz-sports-venue-manager/id1526421908>

Android: <https://play.google.com/store/apps/details?id=com.afausers>

❖ 3Efreet – Package Delivery

A mobile application designed to provide fast and reliable package delivery services. It allows users to schedule deliveries, track orders in real-time, and manage shipments seamlessly with an intuitive user experience.

IOS: <https://apps.apple.com/in/app/3efreet-package-delivery/id1576048312>

Android: <https://play.google.com/store/apps/details?id=com.tefreet.customer>

❖ 3Efreet Partner

A dedicated mobile application for delivery partners to manage pickups, deliveries, and order status efficiently. It enables real-time updates, route management, and seamless coordination to ensure smooth and timely deliveries.

IOS: <https://apps.apple.com/in/app/3efreet-partner/id1576317557>

Android: <https://play.google.com/store/apps/details?id=com.tefreet.rider>

❖ YAASS – Privacy Social Network

A privacy-focused social networking and dating mobile application that enables users to build meaningful connections, find friends, and discover relationships in a secure and controlled environment. The app provides advanced user controls over interactions, content visibility, and communication, ensuring a personalized and safe social experience.

IOS : <https://apps.apple.com/in/app/yaass/id1562493671>

❖ Tee Letrik

Tee Letrik is a smart platform that connects users with skilled electrical contractors, offering easy service discovery, seamless communication, and reliable solutions for both home owners and professionals.

IOS: <https://apps.apple.com/my/app/tee-letrik/id6444364810>

Android: <https://play.google.com/store/apps/details?id=com.mycontractoruser>

EMPLOYMENT HISTORY

❖ React Native, Segwitz Sdn Bhd Jan 2024 — Apr 2026

- Design and develop cross-platform mobile applications using React Native
- Optimize app performance, responsiveness, and stability
- Implement clean architecture and reusable components
- Integrate REST APIs, third-party libraries, and native modules
- Debug and resolve complex technical issues, including dependency and build-related challenges
- Collaborate closely with UI/UX designers, backend developers, and QA teams
- Manage app releases, including Play Store and App Store deployments
- Ensure code quality through best practices, testing, and code reviews
- Handle version upgrades, package management, and technical improvements

❖ React Native Developer, YAASS Jan 2021 — Nov 2023

- Built and enhanced React Native mobile applications with focus on performance and scalability
- Handled API integration, state management, and UI development
- Fixed production issues and ensured smooth app functionality
- Collaborated with team to deliver features within deadlines

EDUCATION

❖ Acropolis Group of Institutions Feb 2018 — Mar 2023

Integrated Master of Computer Applications (BCA + MCA)

CERTIFICATION

❖ NPTEL: Problem Solving Through Programming

❖ Data Analytics (LinkedIn Learning) – Covered data interpretation, visualization, and user insights for product improvement
